PREVENTION ACTIONS TO HELP PREVENT SPREAD OF RESPIRATORY DISEASES INCLUDING COVID-19

1. Avoid close contact with people who are sick.
2. Avoid touching your MEN (Mouth, Eyes and Nose).
3. Stay home when you are sick.
4. Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
5. Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.
6. Use of facemask is encouraged:
 - Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
7. Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, and after blowing your nose, coughing or sneezing.

8. If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty.
